

FOR IMMEDIATE RELEASE

Echo911, LLC Acquired by Prism Logic, Inc.

Huntsville, Alabama | March 1st 2024

We are excited to share that as of today, March 1st, 2024, Echo911, LLC, a distinguished pioneer in digital communications technologies, has been acquired by Prism Logic, Inc. This acquisition marks a significant milestone for both companies and the services we provide in the realm of public safety and advanced communications.

Echo911, LLC is renowned for its comprehensive offerings in the communications, public safety, security, and data sectors. Our commitment to enhancing real-time radio communication, dispatch services, and data systems has been unwavering.

Customers and employees of Echo911, LLC should be assured that this new chapter under the Prism Logic, Inc. umbrella is a positive development. Prism Logic, Inc. has committed to investing significant time, energy, and financial resources into the future of Echo911's products and services. This strategic acquisition was made with the vision of building upon the solid foundation Echo911, LLC has established.

We understand the importance of the services Echo911 provides to our communities and the trust you place in us. Please be assured that our dedication to innovation and excellence will only strengthen. We firmly believe that this will allow us to better serve you reliably and professionally. More detailed information regarding this transition and future plans will be shared in the near future. We have our eye on an expanding number of products and product lines. We thank our clients for their patience as we shift existing products and branding to Prism Logic, LLC.

Our goal remains steadfast: to innovate in the fields of radio and data communications and to advance consolidated dispatching. We look forward to embarking on this exciting journey together and continuing to serve our communities with even greater capabilities.

Thank you for your continued support and trust in Echo911, LLC. We are eager to move forward as part of Prism Logic, Inc. and to bring new advancements and improvements to our services, to our clients, and to the public.

Prism Logic, Inc. is planning significant developments for the innovative Mission Critical Push-To-Talk (MCPTT) and public safety data-driven technologies that were previously offered under the Echo911, LLC brand. Announcements regarding new branding and products will be made soon.

Please direct any questions or comments to media@prismlogic.com and customers may reach out to our sales or customer service department through standard channels including the customer portal <https://portal.echo911.com> or by calling 877-627-0002.
